Educational Offer at the IPT

cTeSP

Vocational higher education programmes

- . Laboratory Analyses
- . 3D Animation and Modelling
- . Industrial Automation
- . Accounting and Management
- . Multimedia Design
- . Administrative Management of Human Resources
- . Commercial Management and Sales
- . Computer Science
- . Electrical Installations and Industrial Maintenance
- . Maintenance of Mechatronic Systems
- . Production of Cultural Tourism Related Activities
- . TV Direction and Production
- . Security and Civil Protection
- . Sound and Image
- . Technologies and Programming of Information Systems
- . Integrated Manufacturing Technologies - **New**
in partnership with ALTRI
- . Web and Mobile Devices

Bachelor's degrees

- . Documentary Film Studies
- . Media Studies
- . Conservation and Restoration
- . Accounting
- . Design and Graphic Arts Technology
- . Electronics and Computer Engineering
- . Computer Engineering
- . Mechanical Engineering
- . Photography
- . Business Administration
- . Human Resources Management and Organisational Behaviour
- . Building and Site Management
in partnership with the Escola Superior de Actividades Imobiliárias (ESAI)
- . Computer Science and Multimedia Technology
- . Chemical Technology
- . Tourism and Cultural Heritage Management

Training offer subject to enrollment condition minimum number of students.
Consult our training offer updated at www.ctesp.pt

Obs: Training offer subject to change.

Does not dispense consultation at: www.ipt.pt

Master's Degrees

- . Business Intelligence and Analytics
- . Prehistoric Archaeology and Rock Art
(Master Erasmus Mundus Quaternary and Prehistory)
(in partnership with French, Italian, Spanish and Filipino higher education institutions)
- . Auditing and Finance
- . Conservation and Restoration
- . Editorial Design
- . Electrical and Electronic Engineering
- . Computer Engineering - internet of things
- . Mechanical Engineering - mechanical project and production
- . Management
- . Human Resource Management
- . Urban Rehabilitation
- . Archaeological Techniques
(in association with the Master Erasmus Mundus DYCLAM on Cultural Landscapes)
- . Chemical Technology

Postgraduate Degrees

- . Computational Data Analysis and Processing
(in partnership with IBM)
- . Archaeology and Heritage Management and Education
(Direct access to the Master programme in Archaeological Techniques)
- . Underwater Archaeology
(Direct access to the Master programme in Archaeological Techniques)
(in partnership with Universidade Autónoma de Lisboa – UAL)
- . Healthcare Management
- . Bioresources and Sustainability - New
- . Logistics
- . New Communication Technologies
- . Industrial Management
- . Civil Protection
(in partnership with National FireFighter School)
- . Documentary Direction and Production
- . SAP - Enterprise Management Systems
(in partnership with SAP, IBM and SOFTINSA)

IPT Location in the Centre of Portugal

Tomar > Coimbra - 45 min

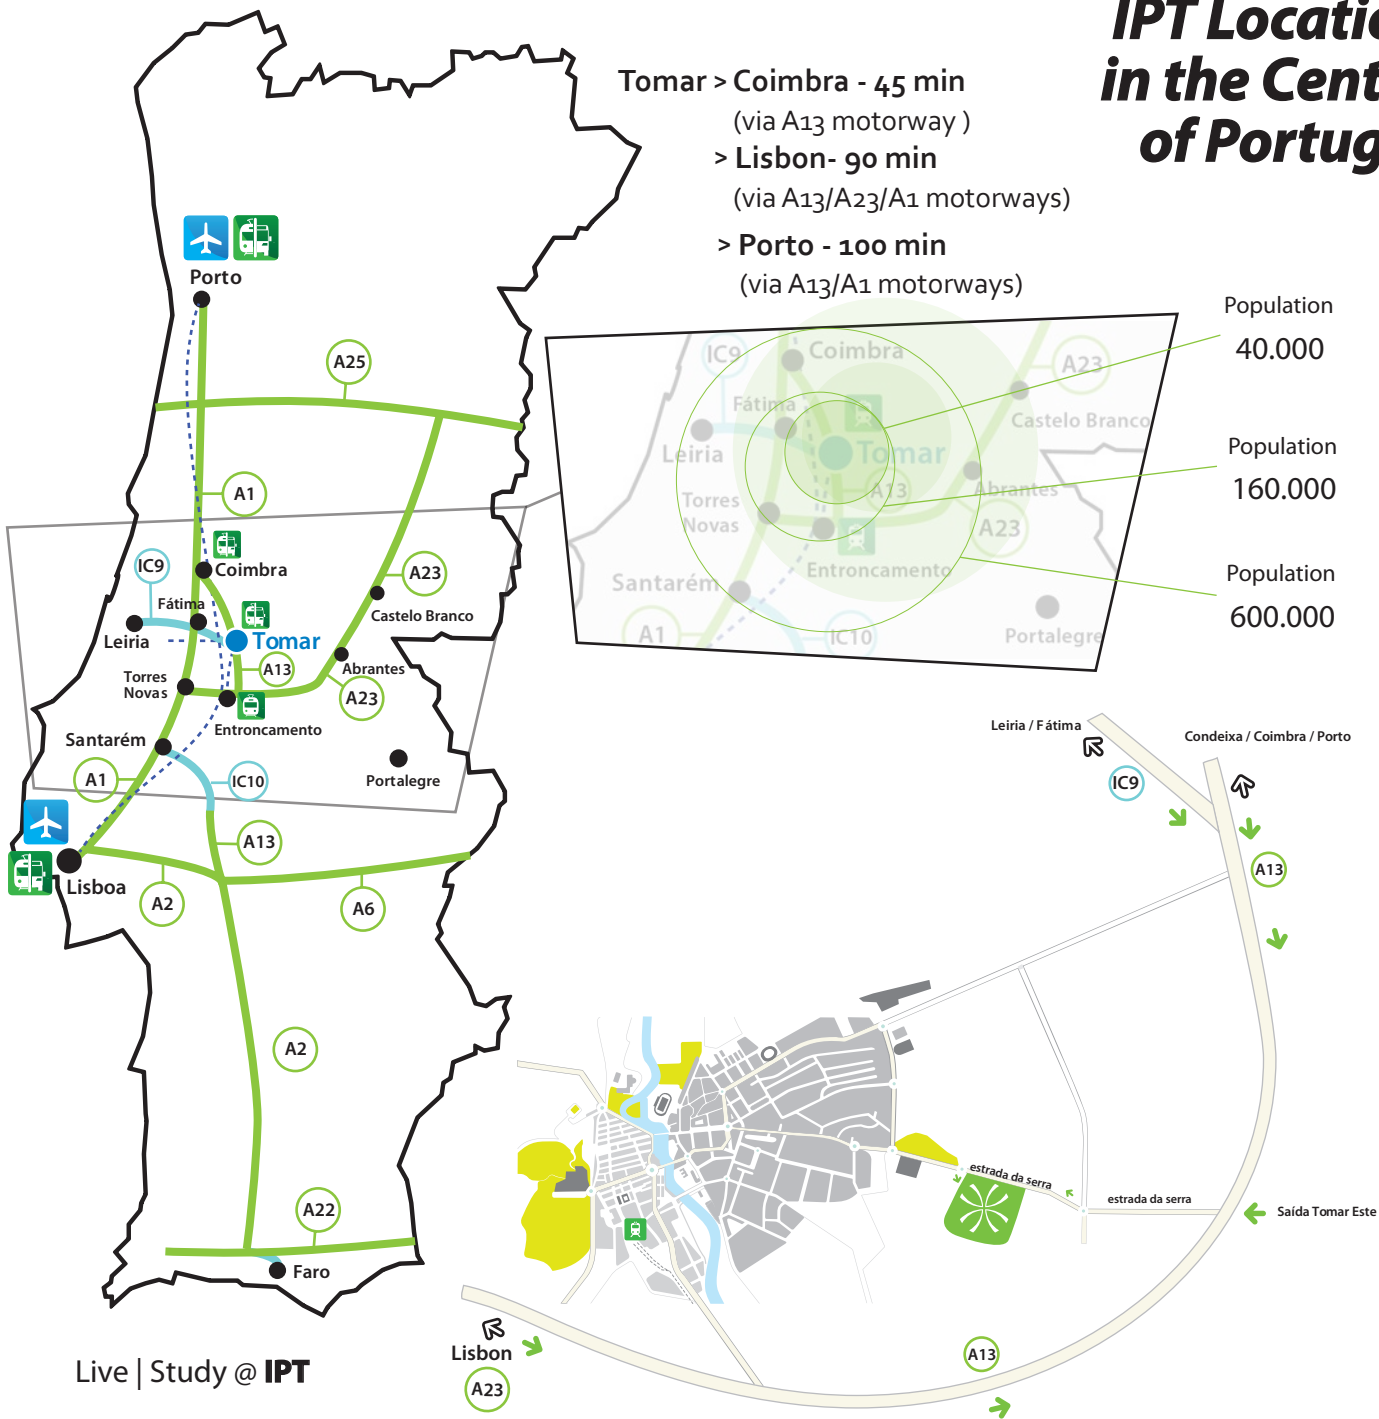

(via A13 motorway)

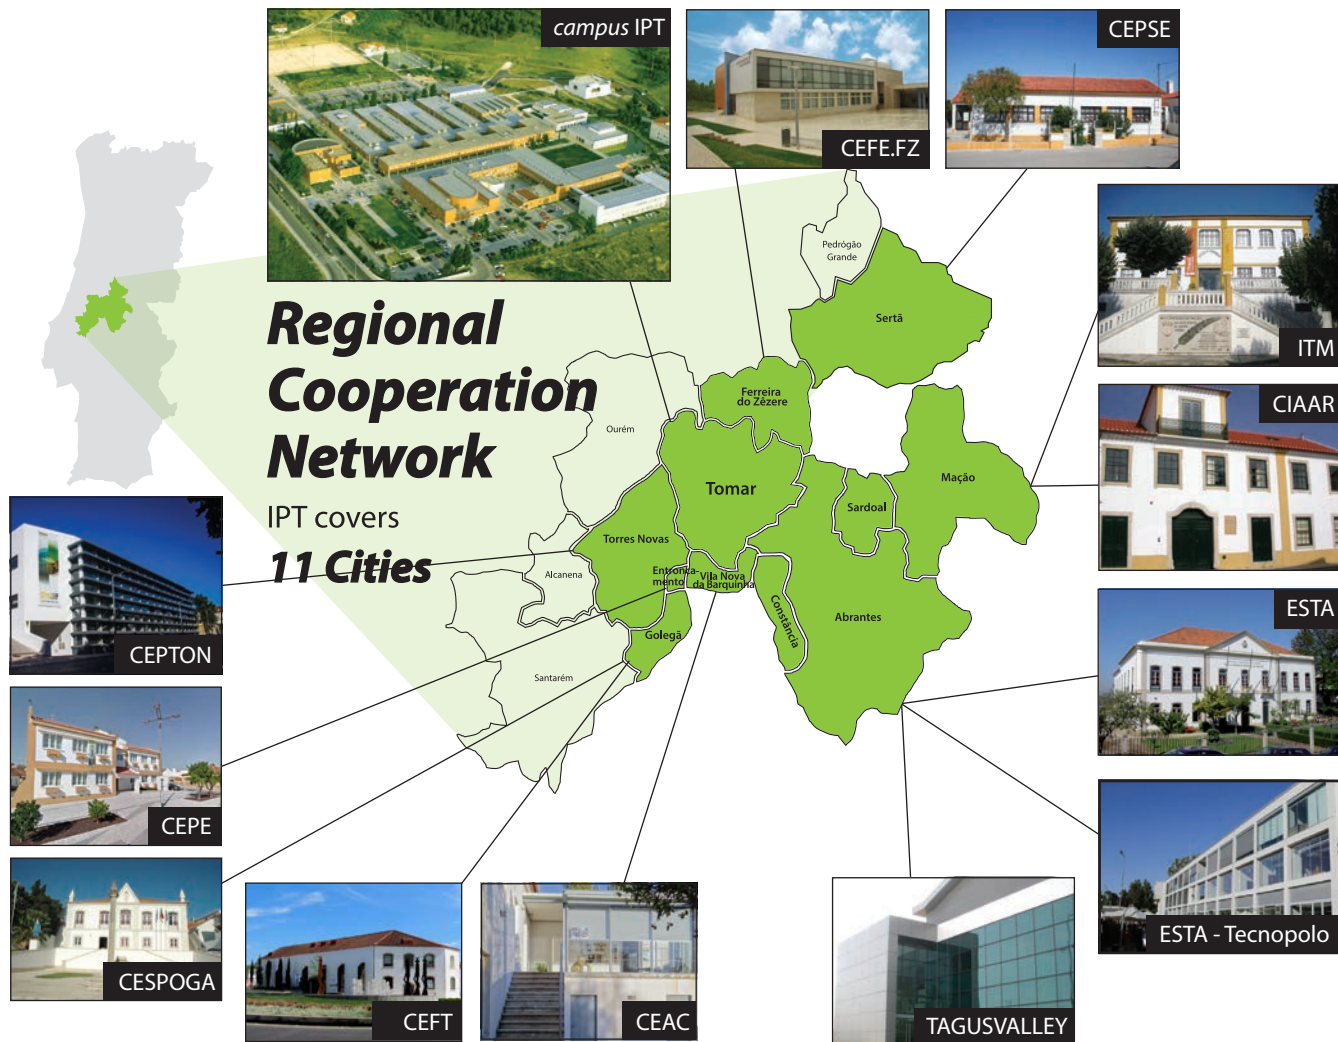

> Lisbon- 90 min

(via A13/A23/A1 motorways)

> Porto - 100 min

(via A13/A1 motorways)

Printing services

Car parking

Médio Tejo

"A Region to Discover"

We are the Médio Tejo, "a region to discover".

The geodesic centre tells us that we are in the middle of Portugal... a place of many virtues. The Médio Tejo region comprises the municipalities of Abrantes, Alcanena, Constância, Entroncamento, Ferreira do Zêzere, Mação, Ourém, Sardoal, Sertã, Tomar, Torres Novas, Vila de Rei and Vila Nova da Barquinha.

Each municipality has a distinctive character that allows for unique experiences imbued with a very rich historical, cultural, heritage and environmental legacy.

The Almonda, the Alviela, the Nabão, the Tejo and the Zêzere rivers run along our shores and most of the territory is bathed by a blue, magnificent and limpid lake.

It is the Castelo do Bode reservoir which calls for nautical, leisure and social experiences.

Then, further north and full of potential, is the interior pine forest with its crystalline streams, agricultural fields and green landscapes.

This is a region of know-how, tradition and flavours. From convent delicacies to Mediterranean food and contemporary gastronomy where there is no shortage of produce from our land.

We are a region that excel in the production of olive oil, wine, chorizos, convent confectionery and other gastro-nomic products where we are invited to sit down and simply taste and enjoy.

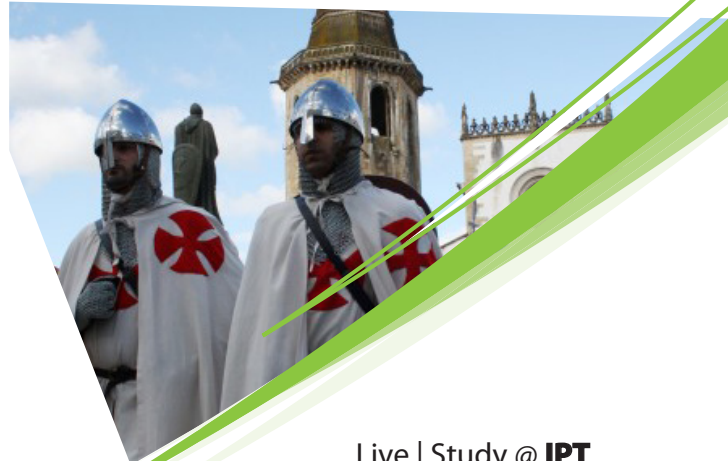

Then, wrapped in mystery, full of stories to be revealed and kept well-guarded by the walls and towers, are the six castles of the region that leave no one indifferent - Almourol, Abrantes, Ourém, Tomar, Torres Novas and Sertã.

Here cultural activities are frequent from medieval fairs, dances and traditional parades and stories and traditions are exalted and preserved for the sake of the past.

The Convento de Cristo - a UNESCO World Heritage Site, and the important Templar legacy left in Tomar, Almourol (municipality of Vila Nova da Barquinha) and Dornes (municipality of Ferreira do Zêzere) are subliminal resources in the Médio Tejo, whose diversity characterises this region located at a stone's throw from Lisbon and Oporto.

The Médio Tejo has all this and much more! It has its people, firm and persistent, investing in a region that is still to be discovered, that wants to affirm itself for what it is and for what it has conquered and that wants to be lived and experienced.

CIM of the Médio Tejo committed to regional development

The Intermunicipal Community (CIM) of the Médio Tejo was established to promote the region. Its aim is to stimulate the balanced and sustainable development of the territory based on regional strategic planning and support for local authorities.

With a number of very specific areas of intervention, the CIM of the Médio Tejo is dedicated to Tourism, Economy, Mobility and Transport, Civil Protection, Culture and the promotion of a more socially inclusive society with an education of excellence.

That is why we have a project called PEDIME - Plano Estratégico de Desenvolvimento Intermunicipal da Educação no Médio Tejo (Strategic Plan for the Intermunicipal Development of Education in the Médio Tejo).

PEDIME's fundamental objective is to promote the development of the Médio Tejo through the recognition of a sublime education in this region. PEDIME

aims to combat school failure and dropout and promotes innovative educational projects that contribute to the development of learning potential and levels of excellence in teaching.

In 2020, the CIM of the Middle Tagus is committed to giving continuity to PEDIME and other projects that have a single focus - promoting the quality of life of our citizens and preparing a territory where they can live with quality, where the commitment is a guarantee of success and where the visitors do not feel deceived.

Welcome to the Médio Tejo,
"A region to discover"!

The Region

» 6 Castles, 5 Rivers

Castles (Abrantes, Almourol, Ourém, Tomar, Torres Novas and Sertão), sentinels of a fascinating territory bathed by five rivers (Alviela, Almonda, Nabão, Tejo and Zêzere).

» Live Science

- . Centro Ciência Viva do Alviela - Carsoscópio
- . Centro Ciência Viva de Constância – Parque de Astronomia
- . Centro Integrado de Educação em Ciências

» Archaeological Heritage

- . Gruta de Avecasta
- . Parque Arqueológico do Ocreza
- . Estação de Arte Rupestre da Fechadura
- . Castro de São Miguel
- . Vila Cardílio
- . Ruínas Romanas de Alcolobre
- . Vila Romana de Coinas

» World Heritage

Highly distinctive and exclusive inclusion in the World Heritage Network (UNESCO - Convento de Cristo), a unique heritage site comprising the Templar Castle and a vast green area, Mata dos Sete Montes, to which is added an important built heritage classified and/or in the process of being classified, throughout the municipality.

» Railway Heritage

National Railway Museum (Museu Nacional Ferroviário). A central museum in the municipality of Entroncamento and several branches distributed across the national territory.

Healthcare

» **Centro Hospitalar do Médio Tejo**
comprises **3 hospitals:**

- . Abrantes Hospital
- . Tomar Hospital
- . Torres Novas Hospital

» **12 health centres**

(Abrantes, Alcanena, Constância, Entroncamento, Fátima,
Ferreira do Zêzere, Mação, Ourém, Sardoal, Torres Novas,
Tomar, Vila Nova da Barquinha)

Schools

2 | Higher Education
